

2023 CULVERTS, STORM SEWER, RV PARK SEWER LATERAL

PROJECT

PROJECT DESCRIPTION

WICKWIRE, P.C. provided Professional Engineering Services for the construction of (2) new culverts at the Kofmehl Road and Stambaugh Avenue intersection in Iron River, and in the Klint Safford Memorial RV Park, the replacement of (3) culverts and (2) headwalls and the construction of a new sanitary sewer lateral to a campsite. The project included acquiring EGLE wetland and floodplain permits for construction. The project was funded locally by the City of Iron River. WICKWIRE's services included design plans and specifications, EGLE permitting, bidding and construction contract award, construction administration, construction observation, and construction staking. The project alleviated drainage issues at the Kofmehl Road and Stambaugh Avenue intersection, along with replacing failed culverts and providing sanitary sewer access to an additional campsite in the RV Park. The culverts and sewer lateral were installed via the open cut method.
