

# 2023 STREET IMPROVEMENTS

## PROJECT

### PROJECT DESCRIPTION

WICKWIRE, P.C. provided Professional Engineering Services for the resurfacing of 4,575 linear feet of aged and deteriorated roadways in the City of Iron River. The project was funded locally by the City of Iron River. WICKWIRE's services included design plans and specifications, bidding and construction contract award, construction administration, construction observation, and construction staking. This project was crucial in resurfacing roadways which caused rough driving surfaces and poor stormwater drainage in the former Village of Mineral Hills in Iron River. WICKWIRE worked closely with the Contractor on the project to save the City \$12,000 on the project.
